Duncan Moves North From Shanghai While Chinese

Realignment Continues Northern Chinese, Defeated By Southerners, Stand at

Yellow River Shanghai, June 2.-Major-General John Duncan, commander-in-chief of the British Shanghai de-fence force, is to leave Shanghai to-night for Tientsin, accompanied by his chief of staff, Viscount

Gort. They will travel aboard the British destroyer Keppel. FOREIGN TROOP MOVEMENTS
Peking, June 2.—The dispatch of United States marines from Shanghai to Tientsin is part of the British, Japan and United States decision to increase the garrisons in the northern section of the country following the retreat of the Norther nChinese armies, who have made what is termed a strategic retreat to the Yellow River before the drive of the Southern or Nationalist forces.

It is believed the Northereners' retreat is practically completed, and that they are engage din consolidating their new positions. There are rumors of further defections from the Northern ranks, increasing the precariousness of their position.

BRITISH SEND TROOPS

BRITISH SEND TROOPS With 2,000 Japanese troops already landed at Tsingtao, Shantung province, a British contingent will be en route northward from Hongkong and Shanghal in a few days. hTe second company of the Yorkshire Regiment is due here to-night to reinforce the British.

ATTITUDE OF JAPAN

Tokio, June 2.—Foreign Office reports are that no important developments are taking place in China at the present time, and it is stated the Japanese authorities do not anticipate any in the near future.

The Government announced to-day that it did not expect to dispatch further troops from Manchuria immediately, awaiting further developments.

STEPS OPPOSED

Representatives of labor unions and the prolectarist parties held a mass meeting in Tokio to-day and decided to oppose vigorously the sending of Japanese troops to China. It was de-discondended to China. It was de-discondende

meeting in Tokio to-day and decided to oppose vigorously the sending of Japanese troops to China. It was decided also to urge immediate recognition by Japan of the Chinese Nationalist Government. Although Pinance Minister Takshashi gave ill-health as the reason for his resignation, presented to-day, it is reported in some quarters it was prompted by his opposition to sending troops to China. He has been succeeded by Chuzo Mitsuichi, one of the leaders of the Selyukai Party. B. C. ELECTRIC

SOVIET LEADER SAYS

sion of the Moscow Soviet yesteraay, said the British rupture with Russia was a prelude to war.

The international situation, he thought, was pregnant with grave complications. The British Government, he asserted, wished to improve its position by provoking war, in which it hoped to play a leading part, leaving "the dirty part of the work" to other peoples, who, being thereby weakeneu, would be subordinated to British. To this danger the Soviet Union opposed a steady policy of peace.

Other points in the president's long speech were that the British Government's charges against the Soviet since 1921 always had been taked on forged documents, and that Greet British long had actively engaged in appling on the Soviet Republic. A group of captured spies, who had acted in the British interests, now were in prison, he said. One had been shot.

NO FUSS MADE

M. Rykoff cited an alleged letter from the British consul in Leningrad to the British mission in Moscow, and another document as proof of his allegations. The Soviet, however, had made no fuss about these, holding the incidents did not justify a diplomatic dispute, he said.

While the fight was in progress, Ed-Purkett, suspected bandit and one of the participants, escaped from the jail and fled in a waiting automobile. A dozen other prisoners watched the battle without giving aid to either their fellow inmates or the officer.

LITTLE FRICTION NOW **UNDER BORDER RULES**

Washington, June 2 (Canadian Preas)

—Under the heading. "Kellogg Rules Border; Commuters Must Obey Law," this week's issue of Labor, the official organ of the American Federation of Labor, says:

"The vexed question of workers who commute daily from homes in Canada to places of employment in the United States and back has received its final statement this side of Congress by Secretary of State Kellogg. In an extremely conciliatory note to Hon. Vincent Massey, Canadian Minister: Mr. Kellogg points out that the provisions of the law are mandatory and that the executive authority has no choice but to enforce them. This, however, will be done with as little friction as possible."

Under the terms of the contract for the fight, Churchill was understood to have the last word in the matter of whether the title should be involved.

B.C. WRESTS LEAD FROM ONTARIO IN SILVER PRO-

The increase in the value of production last year was made notwithstanding lowered average metal prices as compared with 1925, indicating a very satisfactory condition in the industry, with production steadily increasing regardless of fluctuations in the metal markets.

came structural and miscellan totaling together \$3,675,128.

totaling together \$3,675,128.

The quantities of lead, copper, zine and silver produced in 1926 were the highest in the history of mining in the Province.

Due to the steady expansion of the Sullivan mine, of the Consolidated Miving & Smelting Company of Canada, at Kimberley, lead has easily maintained first place in the value of mineral products produced in the Province for the last three years, last year's output of 263,023,937 pounds being nearly ten per cent of world production, and the present rate should at least be maintained for many years.

COPPER OUTPUT ALSO AT PEAK

avail themselves largely of the services of the lower animals, and indeed to live with them in close communion, physicians have been compeled to take into account not only the diseases of man but also those of animals, because of the proof that the animals is diseases frequently affect the human. Among the best-known diseases that attack both animals and man are tuble, erculosis, hydrophobia. glanders and anthrax. However, the number of diseases that may occasionally pass from some animal to man is far greater.

Anthrax is a disease in which there are purulent boils. Some of the most serious cases that have occurred have resulted from the infection of human being by using shaving brushes of which the hair was taken from infected hides. Nowadays these matters are carefully controlled by government inspection, but it is still good advice to wash a new shaving brush thoroughly in boiling water before using.

Glanders attacks hores, mules, goats, rabbits and dogs, and may be incoulated into any animal. A considerable enumber of cases have occurred in human beings through contact with infected animals. However, the gradual disappearance of the horse from ordinary life has cut down to a considerable extent the number of case from ordinary life has cut down to a considerable extent the number of case from ordinary life has cut down to a considerable extent the number of production is looked for this year mine, but other mines, and the zinc-refinery at Trail, of the Considered Mining & Smelting Company of Canada, is being further enlarged to a capacity of 280 tons a day.

SHLVER OUPTPUT GROWS

Silver production is rapidly increasing the Sullivan and the Premier mines. The value of the Year's production was \$6.675.606. compared with \$5.768.623, the value of the Ontario was \$6.675.606. compared with \$5.768.623, the value of the Ontario was \$6.675.606. compared with \$5.768.623, the value of the Ontario was \$6.675.606. compared with \$5.768.623, the value of the Ontario was \$6.675.606. compared with \$5.768.623, the value of

Production of gold including placer gold of has averaged about \$5,000,000 annually during the last three years. No great-increase is expected, but as much gold is recovered as a by-product of copper mining the outlook is favorable for an increase from that source. There is also increased development activity in certain gold-quartz camps.

Coal mining has not been in a par-

quartz camps.

Coal mining has not been in a particularly flourishing condition in recent years, chiefly owing to the competition from fuel oil, but the outlook now is believed to be better than for some time past. Last year there were produced 2,330,036 long tons valued at \$11,650,180 compared with 2,329,522 tons of a value of \$11,642,510 in 1925. BUILDING MATERIALS

NEW DISCOVERIES

The most important new discovery during 1926, the Minister's report sets forth, was one eight miles from Topley, fifty-nine-miles east of Smithers, on the CNR, a showing which has only been slightly developed as yet, but reports indicate that it may prove to be a large body of ore of milling grade, with values mainly in silver and gold. Another property in the northeastern district, which is not quite a new discovery but which received attention in 1826, is the Ferguson group, situated near Fort Grahame, on the Finlay River, where it is reported there is an exceptionally large surface showing of silver-lead-zinc ore.

An important new silver-lead discovery was that of the Prosperity group. Portland Canal section, a property which has been bonded by the Premier Gold Mining Company.

An interesting experiment in scientific large-scale prospecting has been initiated by the Consolidated Mining and Smelting Company of Canada in searching for phosphate deposits in East Kootenay. The company has announced that some success was attained in 1926 and that the work will be acceptable on the fertilizer manufacturing business, utilizing the unused sulphurcontents of the Sullivan ofe to make sulphuric acid for treatment of the raw phosphate. The success of these plans would mean a new and important industry for the Province.

METAL PRICES

Metal prices generally in the world's markets in 1926 were somewhat lower than during 1925. The following table shows comparative average yearly prices for the years 1924, 1925 and 1926:

Cents per oz. Cents per lb. Ce

**Prices used in compiling total 1928 Annual Reports.

About the end of September, Hon. Mr. Sloan states, as erious decline commenced in the market price of silver and in a short time the price had decline from the average price of all the decline from the average price of the United States for refining. Jamuary of 67.79 cents an ounce. As a big decline from the average price of the United States for refining. Jamuary of 67.79 cents an ounce. As recovery to 54 cents an ounce to the control of the price of the year. The future of slight yellow is an ounce of the price of the year of the prices of copper, lead and zinc, while slightly below is several that the smaller is available for sampling ones. The prices of copper, lead and zinc, while slightly below is the prices of higher are likely to be maintained indefinitely.

METALLURGICAL PLANTS

Metallurgical treatment of ores in British Columbia in 1928 keep has been easily seventy that characterized the indication of St.1883.34 approximately seventy-two per cent was produced as refined metals within the Province in the work of the control of the control of the control of the province in the province in the production of St.1883.34 approximately seventy-two per cent was produced as refined metals within the Province in the control of the province in the production of St.1883.34 approximately seventy-two per cent was produced as refined metals within the Province in the control of the province in the production of the pr About the end of September, Hon

centrated, smelted, and refined within the Province. In the coast district two large mines—the Britannia and Premier—ship the bulk of their production as concentrates to American amelters, although a part of the Premier output goes to the Granby smelter at Anyox, British Columbia. The Granby Company now mills and smelters all its own ore at Anyox together with any custom ore obtainable. The final product at Anyox is blister-copper, which is a product containing ninety—which is cope with the heavy ton-dage from the Sullivan mills and also amages for having attempted to the suspected the capacity up to 280 tons a day earning the product plant is to be erected and the cuatoms concentrator is to have its capacity. Your Choice at Only \$2.95

Hon. Mr. Sloan states the mineral industry of British Columbit is at the present time in a prosperous and healthy condition. The best evidence of this is to be seen in the keen interest in it now being shown and the ease with which capital is obtained for legitimate mining propositions. The greatest meeds of the industry at the present time are: First, widespread prospecting of the known mineralized areas with more careful and exact methods than have been employed in the past, and, second, the testing of many dormant undeveloped mineral properties by companies strong enough financially, to try out several in the hope of obtaining one profitable mine.

Victoria Woman Finds Relief From Neuritis

Wilshire's I-ON-A-CO,

1113 Government Street.

Dear Sirs,-For over three years I had neuritis in my hands so badly I was unable to close my fingers without great pain and effort, my suffering was terrible. After two weeks' treatment I felt great relief, and now after a month the swelling is almost gone, the stiffening and pain is greatly relieved; in fact, I feel like a different woman and am able to do the ordinary household tasks without any trouble. My blood pressure has also been reduced con siderably and my whole system is toned up. I can only speak in the highest terms of the I-ON-A-CO Belt, and would advise anyone who is suffering to try your treatment and get relief. You may publish this letter as you wish so that others may know and get help as I have done.

Yours truly, (Mrs.) J. P. MUNSON.

Radio Plays Important Part in Northern Survey

On two occasions engineers of the Canadian National Railways were required to send out location parties in the Peace River country and in Northern Manitoba, the latter party-making towards Churchill. On each occasion it was found desirable to include amongst the supplier and equipment a radio receiving set and on the return of the parties it was stated that no addition to camp equipment had ever done so much to add to the morale of the men. The illustrations show: Upper iett, a section of a camp in the Owl River district on the way to Churchill; upper right, a group of men in camp listening to radio reception; below, the survey party in winter garb.

"WHE KNIGHTS OF THE GRIP

FOR THE REST OF THIS WEEK VICtoria will be host to the Grand Council of the United Commercial Travelers of America, compris ing the jurisdiction of Oregon, Washington, and British Columbia, and the delegates to this important gathering will conduct their deliberations at the Em-

It is unnecessary to emphasize the importance of this body or the influence which it exercises on the commercial life of the Pacific Northwest. The "traveler," often referred to as the "Knight of the Grip," is usually one of the best informed citizens of any country. He comes into touch with all sorts of people, not alone those with whom he conducts his business, but with the traveling public as a whole. He may find himself sitting next to a statesman in a railway train; a famous diplomat in some other spot, some brilliant jurist in a hotel lobby, with other people in all walks of life and in various places.

No successful "traveler" can afford to suffer from too much reticence; consequently he usually is as much at home with the highly-placed as with the ordinary citizen. He collects many points of view. continually adds to his storehouse of knowledge, and adequately qualifies himself for a high standard of citizenship. Often he is called upon to exercise a quality of tact and patience unknown to most people. He must be a student of psychology, able to read the thoughts of a prospective customer, ready to accept the "nothing doing" dirge with serenity. For the successful salesman must possess more than per-

The "Knights of the Grip" in the Pacific Northwest have established a fine reputation for themselves. But their organization which commenced its sessions here to-day is far from self-centred; its activities include the discharge of many important obligations. It is mindful of the unfortunate member. It ministers to the sick among its numbers. It relieves the anxiety of the widow and the orphan and in many ways performs good offices.

The fact that the Grand Council is an international body is all to the good. "Drummers" in the cause of commerce very naturally are "drummers" in the cause of goodwill between nations. They, perhaps better than anybody else, realize the utter futility of international strife, both from the economic and from the social point of view. It is thus fitting that Victoria should welcome heartily this important organization.

HONOR FOR DR. CLAY

IN ELECTING THE REV. DR. CLAY TO the important position of Moderator of the Presbyterian Church of Canada the General Assembly has conferred an honor upon an outstanding citizen of Victoria, upon this city, and upon the Province of Pritish Columbia as a whole.

Dr. Clay has been a resident of Victoria for more than thirty years and Minister of St. Andrew's Church for thirty-three years, and during the whole of that time he has been one of the leaders of the religious and public life of this community. In fact it can be said of Dr. Clay that he is well known, not only throughout this Province, but also throughhole of the Dominion, Victoria, moreover, always has found him active in all good works, and although his ministerial duties very naturally have taken up the major part of his time, no public movement which had for its object the welfare of this community has found him other than ready to lend his

It can be taken for granted that Dr. Clay's congregation will heartily appreciate the honor which has been conferred upon their pastor and offer him their heartiest congratulations. In these felicitations The Times desires to be associated.

ANYTHING IN THE PAPER?

CONVERSATION OFTEN IS HEARD that runs something like this: "Anything in the paper to-night?" "No, nothing much." Neither question nor answer need be taken to indicate the actual attitude of the person to the newspaper. It simply means that nothing has caught the eye which interests at first sight; but on reflection the view nearly always changes. The reader gets a new conception of what concerns him and what does not. A report in the paper, for instance, of an important debate in the House of Commons at Ottawa, the ultimate outcome of which may easily have a very direct connection with the financial fortunes of the average citizen, might not interest some people. Similar remarks would apply to other items of news which appear to the casual reader as "nothing."

There is no need to make this application to the serious news alone. Take one of our recent issues as 17 example. Victorians were told that

although the weather has been moist and cool of late, saventy forest fires have occurred in B.C. this season and most of them were occasioned by carelessness. This is one serious item, since it means the destruction of valuable property belonging to the people. Another item was an announcement from Chicago that a cracker had been invented that could be eaten in And our willing the broad of the control of the con bed because its crumbs are so soft that they would hardly be noticed if the downy couch were almost full of them. Another announced that Britain will make her auction bridge rules conform to the American. Then Revelstoke informed us that a White Leghorn pullet had laid an egg nine inches in circumference the long way and seven inches round the centre weighing five ounces and containing three full-sized Within In fact this biddy-meser shas known what it is to lay a normal-sized egg since she started laying. Then what do you think of the ingenuity of a Chi-cago restaurant keeper who had fifty laborers feeding free for a week to impress a prospective purchaser of the business with its popularity? Then there was an item from Vienna which recorded the suicide of a middle-aged man by asphyxiation; he left a gote behind apologizing for the waste of the gas. Came also the news of the revival of the Academy of Liars in Paris; it proposes to hold a "Grand Festival of Imagination" to which "no politicians or ordinary liars" have the slightest chance of gaining admission. We likewise learned from a dispatch from Washington, on the authority of the Smithsonian Institute, that

All these items indicate the variety of news which the modern newspaper carries. Do those who fetch the evening paper from the front porch realize the size and the comprehensiveness of the organizations which exist in many lands for the gathering and transmitting of these dispatches to the world's press? Think of the dozens of languages into which the several items we have mentioned have to be translated. There always is something in the newspaper which interests somebody and nearly always every-

there are thirty billion stars in the sky. Let the jaded

newspaper-reader count them if he wants a new

interest in life. Beyond this budget, of course, was

WHAT OTHER PAPERS SAY

SELF-INFLICTED

From The San Francisco Chronicle

It has been said that of all human passions the most destructive to its subject is jealousy. Spite grows out of hatred and hatred is next of kin to jealousy. . . As mercy is twice blessed, so is spite twice accursed. For it mangles the heart and distorts the soul. Hate is one vice that is its own punishment.

THE BREAK WITH THE BOLSHEVISTS

The Globe is unable to see that there is anything regrettable in the possibility that "A break with Britiain may hasten a complete breakdown of the Soviet's economic system and leave Russia not only without any functioning system but without sufficient morale to hold society together." But the Telegram, which The Globe usually follows siavishly, publishes a special cable from H. 3. Murton, its staff correspondent, which says. "It is to be feared that England's action may react upon Russia's internal politics in a way to give fanatics there a return to power, spelling the complete collapse. re a return to power, spelling the complete collapse.

of Russia's economic life."

The Telegram cable, it will be seen, utters views similar to those expressed by The Star. It agrees that recent developments may hasten a complete breakdown of the economic life of Russia. And it fears this may give the Bolshevists a new lease of life. As the whole western world desires the end of Bolshevist regime, speculation must continue for some time as to whether Britain's break with Russia will contribute to that end.

Queer Quirks of Nature

SQUIRRELS TAKE MEMORY TESTS

SQUIRRELS TAKE MEMORY TESTS

Do squirrels remember where they nide nuts? Or can they smell a nut' hidden in the ground? Or do they sometimes just dig around and find something by chance, because so many squirrels have buried so many nuts in the squirrel neighborhood?

This squirrel puzzle is a live topic among naturalists. The story of a red squirrel that buried nine nuts in the snow on a house balcony, and that came the next day and carefully dug up the nine nuts one by one, even though a new fall of snow complicated the problem, is told by Dr. A. Brookes Klugh of Cornell University in a report to the forthcoming issue of The Journal of Mammalogy. This incident, Dr. Klugh says, is proof of the red squirrel's remarkably strong memory for location. In many cases there is a possibility that the sense of smell may help a squirrel to find hidden objects, he adds, but this time such assistance seems out of the question.

Dr. Klugh has studied red squirrels for eight years

of the question.

Dr. Klugh has studied red squirrels for eight years and has watched individual squirrels over periods as

Dr. Klugh has studied red squirrels for eight years and has watched individual squirrels over periods as long as two years.

He says: "Time after time, I have seen a squirrel go by the nearest route to something it has stored, take it out and eat it."

Observations indicating that squirrels do not, "smell" the buried nuts have been made by L. R. Dice of the University of Michigan and described in the same journal A fox squirrel, which came regularly to be fed, was observed over a period of several months. The squirrel was fed in a shallow box on the house porch and Mr. Dice filled it with sand and buried a number of nuts under the sand. The squirrel came frequently to the box to eat nuts which were left for it on top of the sand. It sometimes dug around in the sand and if a nut were partially buried with one end sticking up in sight, the squirrel would be likley to find it. But it never discovered a single completely buried nut. If the wainuts were in sight, it would hunt about and leave without its dinner.

"If squirrels do not find buried nuts by use of the sense of smell," he states "the presumption would be that they remember the place where they have buried each nut thy find. This would requires a well developed memory, though not necessarily a perfect memory, for squirrels undoubtedly fail to find many nuts they have buried."

A THOUGHT

It is easier for a camel to go through the eye of a needle than for a rich man to enter into the kingdom of God.—Matthew xix. 24. Common' sense among men of fortune

Drink no longer water, but use a little wine for thy stomach's sake.—I. Timothy v., 23. Good wine needs no bush.—Shakespeare.

carried by rail to Montreal for ocean shipment. Another 81,000,000 bushels went to Buffalo for shipment over United States railways to New York. The balance went through Port McNicoll and Port Colborne, to be reshipped by lake or rail to Montreal. Thus the prairie crop converges on two ports—Montreal and New York. A small portion trickles further east, by rail to Halifax, St. John and Portland. Of the total crop, 40,000 000 bushels from New York, and 8,000,000 bushels from New York, and 8,000,000 bushels from the other north Atlantic ports.

Ot

MUSICIANS' UNION

To the Editor:—A letter appears in last Sunday's Colonist over the signature of John Day in support of Dr. Davies in his controversy with the Musicians' Union. I am patiently waiting to hear from another well-known citizen who also loves to take public issue with our organization and when be puts in an appearance it will enable me to give the signal for the striking up of that well-known balled, "Hall! Hail! The Gang is all Here." As the erratic trend of Mr. Day's thoughts on all matters of an argumentive nature is so well known to the citizens of this city I would not have deigned to answer his letter at all if it were not for the fact that he has held me up as the horrible example of a man holding a card in two unions at the same time. Like our reverend critic he makes the fatal mistake of breaking his pick as it were, right at the start by making mis-statments, as I never held more than one union card and that is in the musicians' union.

Furthermore, I defy him to prove that I ever did any musician, who entirely depended on music for a living and was competent on the instrument that I play, out of a job. The remuncration I am at present receiving or

Buster Keaton's life has been a solemn one. All his life the star of "The General," the Civil War laugh feature at the Coliseum Theatre, has been making others laugh, yet he is never granted for his own part a levity lighter than an undertaker heading a procession. As if that were not enough, he can never show any real grief.

Buildings may tumble upon his head, trains run off the track and locomotives plunge into rivers, as in "The General." Animals may sample his anatomy and horses step on his face, yet he is always prohibited from expressing the pain he feels.

Buster the "frozen-faced" he was dubbed, and Buster the "frozen-faced" he has to be.

Recommendations Ask For Greater Friendliness of Canadian-born to Newcomer

in absorbing the foreign born girl

CLUB

TO-DAY'S BRIDE AND BRIDEGROOM

VASHABLE RUGS

Vashab

tion in absorbing the foreign born girl into the national life of Canada, was discussed at the twelfth national convention here. Miss Muriel Brock, Dominion president, presided, and the discussion was led by Mrs. P. Foster, Dominion field secretary.

In discussing the report of the foreign born committee, Mrs. Foster stated there were sixty-six different nationalities in Canada, and that certain problems and social consequences of the immigration must be met by the Y.M.C.A. For rural areas, the recommendations included more adequate medical treatment and nursing care; better education facilities; more wholesome recreation for young men and women, and greater friendlines by native-born Canadians toward new Canadians, with a better understanding between the different foreign groups.

the search flower of the control of soft tulle veil was caught to the nance cap-fashion by a simple circlet of the cap-fashion of Madonnai illies and pink roses.

Sheer Frocks and Women's

Hygiene

New way safer - discards like tissue By ELLEN J. BUCKLAND

THAT filmy gowns and women's with a safely together is a fact millions of women are learning.

Old-time sanitary "pads" with their worries and dangers are giving way to the utter protection of a new way called Kotex.

Kotex discards as easily as tissue. Thus no laundry, no embarrassment of disposal.

Five times as absorbent as ordinary cotton "pads," one may now dance, motor, go about for hours No laundsy—discard like tissue

We Have Many Articles Suitable for Presents for June Brides

THE RED . CROSS WORKSHOP

Shop Windows on Parade In the quiet and comfort of your home, newspaper

in hand, the shop windows of the town's best stores pass in review. Look at that charming little hatjust the style you have been looking for, and so reasonable!

And say, isn't that coat a darling? . . . Not only do you see illustrations of the merchandise, but you are told in detail of its merits and prices. A passing panorama that may be halted and started and halted at will. A shopping trip at home!

How long do you suppose it would take you to reverse the process—to go up one street and down another, until you had visited personally every worth-while store in town? And how exhausted you would be, physically and nervously.

There's no doubt about it. The modern way to shop is to read the advertisements, then make notes of the stores and the particular offerings that appeal to you. What a lot of time and bother such a method saves. You know beforehand what you want to look at, who has it, and what you will have to pay.

Read the advertisements. Make it a daily habit. The regular reader of advertisements is better informed, makes the family budget stretch farther, has more time for recreation, gets more value for her money, and profits in many other ways. Advertisements are frequently the most interesting news in the paper.

Every Day These Shop Windows Are Lined Up For Your Inspection In This Newspaper Times Advertising Dept. Phone 1090

MURPHY ELECTRIC CO.

NEWS IN BRIEF

Dr. J. M. Keyes of this city left yes-erday on a business trip to Portland.

The City Hall will be closed to-morrow all day, the city services observing the King's birthday, it was announced by Mayor J. C. Pendray to-day.

A small fire broke out at the Mc-Master and Horton shingle mill on the ladicates in the standard of the ladicates in the ladicates in the spring Little damage was done.

Frederick H. Sanders, a former student of Victoria College, made an average of eighty-two per cent in the Spring examinations at the University of British Columbia.

A preparatory service at which new members will be received will be held this evening at 8 o'clock at St. Paul's Presbyterian Church, Victoria West when the Rev. J. S. Patterson will preach.

The pupils of Miss Lillian Michaelis will appear in a dance recital at the roporated Sangster's taily-ho, corroborated Sangster's version of the court of the victoria West when the Rev. J. S. Patterson will preach.

The pupils of Miss Lillian Michaelis will appear in a dance recital at the Memorial Hail on Friday and Saturday evening commencing at 8.15 p.m. The proceeds will be shared between the new Cathedral fund and the Solarium.

After leaving the Playhouse Theatre there he is engaged all this week, loyd McGill paid a visit to the City remple Hall and gave his famous hand hadow tricks for the ladies' auxiliary vho entertained last evening at a most njoyable concert.

Nanaimo Odd Fellows are preparing to entertain, the Grand Lodge of the IO.O.F. next week.—It is expected that from 350 to 400 delegates will attend. The Patriarchs Millitant will meet on Monday afternoon, followed by the Grand Encampment and Rebekah Assembly on Tuesday, and the Orand Lodge on Wednesday. On Thursday evening the degree of chivalry will be conferred in St. John Ambulance Hall by Victoria and Vancouver cantons, followed by a banquet and ball at the Odd Fellows' Hall.

The Victoria Welsh Society will hold its monthly meeting on Friday night at Harmony Hall. A good programme has been provided in which the following will take parts: Planoforte solo, Miss Elise Fryatt word solo was \$41,697.11.

To INCREASE FEES

has been provided in which the following will take parts: Planoforte solo, Miss Elsie Fryatt; voçal solos, Mrs. Hobden and the Misses Edith Lewis and Fhyllis Williams. Messrs. D. Jones and M. Thomas; recitation by Miss Celis Lewis; sketch by the Weish Dramatic Club, and selection by the Weish Dramatic Club, and selection by the Weish Glee Party. Refreshments will be served at the conclusion of the programme.

Emphatic dissatisfaction was expressed last night aby the Saanich Council when officially informed that the Provincial Executive Council had approved a plan of a small subdivision [Quebec and the Mafftime Provinces.]

Council when officially informed that the Provincial Executive Council had approved a plan of a small subdivision near Cadboro Bay which provides for a titry-three-foot roadway. Sashich has insisted on sixty-six-foot rights of while the membership in British Columbia and the prairie provinces showed increases.

Insisted on sixty-six-foot rights of way from all subdivisions and adjoining properties have made this road allowance. The council deferred consideration of a proposal to refuse to deal-with any subdivision plans in future, passing all applications to the Executive Council "until it gets tired of interfering."

Strawberry Vale

Health Insurance

Keen interest was evinced in an address on "State Health Insurance" delivered last evening at Strawberry Vale was arranged under the auspices of the Royal Oak and Strawberry Vale was arranged under the auspices of the Royal Oak and Strawberry Vale women's Institutes.

Mr. Whittaker handled the subject matter and considered any suggestion the deal with his between the provinces and there all of her graduate nurses through the assistance of Miss Randle, R.N., head of her graduate nurses through the assistance of Miss Randle, R.N., head of her graduate nurses through the assistance of Miss Randle, R.N., head of the Provinces and the prairie provinces showed increases.

The association now had a total membership of 4.147, it was stated.

B.C. DISCUSSION

This year being the Diamond Jublice of Confederation, the convention will be paid to consulted for work, etc., to enable them to present a definite standing interests are in attendance.

ALD. HOLMES TO SPEAK TO-NIGHT

Alderman H. C. Holmes, chairman of the industrial and zoning committee and leader of the industrial drive opened by the city in conjunction with the Chamber of Commerce at the first of the year. Junction with the Chamber of Com-merce at the first of the year, will be the speaker on the city's pro-gramme of radio broadcasts start-ing at 7.35 p.m. over station CFCT. Alderman Holmes, as chairman of the city industrial committee, occu-ples the key position in the cam-paign for port development. He will deal with the possibilities of grain shipment from Victoria.

Donahue, of Seattle, who was a passenger in Sangster's tally-ho, corroborated Sangster's version of the fight. The witnesses who testified on behalf of Chilton and Olsen were all taxi or tally-ho drivers. C. K. Courtney appeared for Olson and Chilton and Alexis Martin for Sangster.

Every year since Confederation, Canada has expanded, and with the country's growth David Spencer Limited has kept pace. This store did business when goods had to be contracted for a year in advance, and shipped by sailing ship which took months in transit. When the C.P.R. opened to the Coast, the largest single purchase ever made from the firm of John McDonald was made by David Spencer Limited, to be shipped on the first freight to the Coast.

We are always ready to take advantage of opportunities for increased business, and we expect this co-operation between maker and seller will be of great advantage to all concerned.

GOLF, FOOTBALL= BASEBALL, BOXING TIMES SPORTING NEWS

Start of Canadians "Down Under" Makes Fans Here Feel Good

limmy Adam's Boys Show They Can Play Feetball; First Test Match June 25.

Eighteen Matches Yet to Play, Including Four Test Matches: **Tour Ends August 2**

Jimmy Adam and his team of Canaian all-star football players have got if to a nice start in New Zealand,

off to a nice start in New Zealand, judging by the cablegram received by The Times yesterday, which showed that the tourists had captured their first three games very handily.

The Canadians have a very heavy schedule ahead of them. They will play a game nearly every second day, but as they will be against small teams no reverses are anticipated. Manager Adam also has eighteen men with him, which means that he will be able to give his players plenty of rest. On the Australian tour three years ago the Canadians had but fourteen men and Mosher, their goalle, was hurt in one of the opening games and this made it necessary for one of the backs, Noseworthy, to play goal, further handicapping the side. Manager Adam made sure that the team for New Zealand was provided with plenty of good men in case of injuries. MEETING WELLINGTON

MEETING WELLINGTON

To-morrow, the All-stars are scheduled to play Wellington. This will be the hardest game the Canadians have played so far and Manager Adam will. However, the season of the field. Then follow four games with smaller towns before the next hard game in Dunedin. After a match in invercargill on June 22 the Canadians will prepare for their first test match of the tour, which will be played at Dunedin on June 25.

The Canadians are scheduled to appear in four test matches. The best teams in New Zealand will oppose the Canadians and some splendid matches are anticipated. The Canadians, who did not make a very favorable impression in their matches in Nanaimo, Vancouver and Victoria, losing in each place, will be in great shape for their opening test match in Dunedin. LACKED UNDERSTANDING

LACKED UNDERSTANDING

In the exhibition games on the Coast before leaving for New Zealand the Canadians failed to show the form expected of them but this was due in no small degree, to lack of condition and the fact that none of the Easterners had touched a football for six months. Also there was a lack of understanding between the players as they were practically "foreigners". To one another.

one another the opening test match, together with the stiff training which Manager Adam put his team through will have the Canadiana in the pink of shape. During their tame here they showed individual brillance and once they get down to an understanding of each other's play there is no question but that they will make a hard team to beat.

INTEREST IN CANADA

The matches "down under" are arousing much interest in Canada and Victoria is particularly pleased at the way Manager Adam has started his team out. With the Scottish internationals touring Canada and the Canadians down in Australia soccer interest is being maintained here during the off-season.

Many soccer fans have been asking about the schedule of the Canadians in Australia. Here it is, so cut it out: June 3—Play Wellington. June 9—Play Wellington. June 9—Play Nelson.

June 15—Play Greymouth.
June 16—Play Dunedin.
June 28—Play Invercargill.
June 25—First test match at Dune din. INTEREST IN CANADA

June 29—Play Christchurch. July 2—Second test ma

Forcing Half-back

Another of the fine half-backs with the Rangers who will appear in Victoria in June with the Scottish internationals. He had the unique experience of being discarded by Celtic and attaining international honors with Rangers. With Celtic he was a centre forward and he joined Rangers as such, but later was discovered to be a fine forcing half-back. He has developed the rare faculty of turning defence into attack for his experience as a forward enables him to take the ball through and join in a combined aggressive movement. He is not too speedy but good in recovery and a clever tactician. He has an easy, effortless action which makes football seem simple. He was born in Laurieston, Kincardineshire, and is what you would call a "canny Scot." THOMAS CRAIG

SWEEPSTAKES GET LIGHT AIRING IN LONDON COMMONS

London, June 2 (Canadian Press Cable)—Questions with regard to sweepstakes in connection with the great Derby race were asked in the House last night, but the Home Secretary, Sir William Joynson Hicks, replied that he thought it unnecessary to consider the matter for another eleven months.

Sir Frank Meyer, Conservative, Great Yarmouth, sareastically asked "Will the Home-Secretary undertake not to interfere with people doing what they like with their own

Another member asked: "Was a sweepstake organized in the Home Office?" To this Sir William replied: I have not heard of one."

London, June 2 (Canadian Press Cable)-A. J. Labam, winner of the second prize, £35,000 (\$169,750) in the Stock Exchange Sweepstake on the Derby yesterday, is a clerk in the employ of a wellknown Canadian firm of stock brokers here, Coates & Company. Labam's wife keeps a small general store. He accepted £3,500 for a half-share in his ticket before the race

as run. William Jones, retired business man of Felixstowe, who won the first prize in the Stock Exchange Sweepstake, £75,000 (\$363,750) was offered £10,000 (\$48,500) for his ticket prior to the race, but refused

Ladysmith and Saints In Finals Once Again

Ladyamith, B.C., June 2.—By defeating Nanaimo City 3-1, the Ladyamith football team yesterday earned the right to meet St. Saviour's of Vancouver in the final for the McDonald Cup. Nanaimo claimed another goal which they said Wilson scored. A Ladyamith back, they said, cleared after the ball was two feet over the goal line. The referee, however, refused to allow their claim. Ladyamith and St. Saviour's met in the finals last year, the former winning.

Fort William Game Shows Visiting Soccer Team in Great Form; Score 6-1

Hunter Performs "Hat-trick" in First Half: Archibald Makes Great Shot

Fort William, June 2 .- In the fourth match of their Canadian tour the Scot-tish football team last night marked up a 6-1 victory over a representative eleven, New Ontario players, composed of Fort William and district stars.

Battering through the locals' defence the Scottish tourists had it all their own way in the first half, displaying cleverness in all departments of the game to overwhelm the Canadians. The half-time score was 5 to 0 in favor of the tourists. On the resumption of play the New Ontario squad got their bearings and battled hard until the

the tourists. On the resumption of play the New Ontario squad got their bearings and battled hard until the final whistle, but could not overcome the staggering first half tally.

SCORE QUICKLY

Hardly had the ball been put in play when Hunter, the inside right of the visitors, got the ball and scored, beating Skinner easily. A few minutes later Archibald, from outside left, kicked to centre and Munroe falled to score. Grant for the New Ontarios and a nice run down the field and took the ball behind the Scotsmen's goal, and he and McKissock made the most dangerous attack of the half on the visitors net shortly after. The ball soon came back, however, and Hunter again scored, and a few minutes later he made his third counter in succession. After a run down the field McLean cent an unbeatafff's shot into the corner of the net. The last tally of the first half was made by Munroe, who missed the net twice in succession and finally scored on this third try with an easy shot that looked as if Skinner should have stopped it.

A WONDERFUL GOAL

The second half opened with Grant taking the ball behind the Scotsmen's lines, but failing to score. After considerable open play and some pretty passing on the part of the visitors. Archibald, outside left, made a wonderfully accurate shot from the corner, driving the ball across the field and putting it into the met from what seemed an almost impossible angle, fooling the New Ontario goalkeeper completely. From this time onward the local men were outplayed.

Finally, however, a free kick about forty feet from goal was awarded the New Ontarios and McKee kick the only goal scored by his side.

Hunter and Munroe shone for the visitors and Grant, McKissock and McKee kick the only goal scored by his side.

Hunter and Munroe anone for the visitors and Grant, McKissock and McKee kick the only goal scored by his side.

Hunter and Munroe shone for the visitors and Grant, McKissock and Mc Kee were the stars on the home team New Ontario—Skinner, McCreadle Ross, Young, Barker, Brown, Jones Hodgson, McKee, McKissock and Grant Scotsmeri—Hamilton, Scott, Blair Swallow, Simpson, Craig, McLean Swallow, Simpson, Craig, McLean

Sidney Continue Winning Streak In Commercial League

Defeat Spencers 4-3 in Close Game; Tillicums Win 9-4 Over Crescents

Scoring the winning run in the ninth inning Sidney chalked up another victory in the Commercial Baseball League when they defeated Spences'r, 4-3, on their home lot last night.

It was the fourth straight win for Sidney.

In the other Commercial League game played at the Royal Athletic Park the Tillicums came through with 9-4 win over the Crescents.

In the game at Sidney the home team scored a run in the second, third and fifth innings. In the eighth Spencer's got to the offerings of Williams and tied up the score. However, Sidney came back in the ninth and with two men on bases and two out Williams crashed out a single to score the winning run.

Cann. who was on the mound for the Tillicums, practically won his own game in the seventh when he poled out a home run with two men on bases.

BRITISH GOLFERS

Worcester, Mass., June 2.—Comparatively to-day will be a day of rest for the members of the British Ryder Cup team which will meet the United States professionals in the International golf contest at the Worcester Country Club Friday and Saturday.

For the past two days the British professionals have been playing thirty-six holes over the course, but in order to get rest for the Friday matches, they plan to playonly eighteen holes to-day.

Walter Hagen and his United States team, however, do not plan to take it easy. Only four members of the team, Al Watrous, Gene Sarazen, Turnesa and Espinosa, have had an opportunity to play over the course in preparation for the match. They, with the other members of the team who will arrive to-day, plan to put in some strenuous work at practice.

BRITISH DO WELL. BRITISH DO WELL

BRITISH DO WELL

The British team showed to excellent advantage yesterday in their practice rounds, although no one was able to turn in a par card of seventy. Aubrey Boomer and Charles Whitcombe paired against George Duncan and Archie Compson in a Scotch foursome, a trying test of the course, and Boomer and Whitcombe came home in 71, which is considered excellent.

Look For Plenty of Fireworks In Major Leagues For a Time

Defeat of Pittsburgh by Philadelphia Presages Plenty of Excitement

Athletics Again Beaten by Yanks; Hudlin and Edwards **Pitch Great Games**

New York, June 2.—Baseball warfare in the National League concentrated to-day on a western front while the teams of the American League battled in the East.

One day ahead of the other clubs in resumption of inter-sectional warfare, the Philadelphia Nationals opened the conflict with a victory for the East, achieved at the expense of the Pirates 7-4 at Pittaburgh yesterday.

Defeat of the league-leading Pirates who have been bearing almost a charmed life at the hands of their rivals from Eastern Pennsylvania, presaged the popping of plenty of fireworks before the present intersectional invasions come to an end.

Lee Meadows, Pirate star pitcher, who had won all seven of his games this season, was the victim of the Quaker's winning onslatight. One badinning for Meadows gave the Phillies their seven runs in the eighth and lost the game. Five hits, one a homerun by Leach, and two walks produced the seven runs.

Arrayed against another Philadelphia team the leaders of the American League fared better. The Yankees took their fourth in five starts against the Athletics by 2-1 on a ninth-inning single by Joe Dugan, third base. Although out of the game with a bad leg Dugan was well enough to punch a hit to centre when it was needed. A previous Yankee run was scored on a homer by Koenig his second in two days.

days.

Cleveland had a big day in pounding out a 14-1 victory over Detroit for an even break in their series. The hard-hitting Tigers could make but three hits off Young Hudlin, who notched his sixth victory of the year to the tune of twenty hits by his own team. Four Detroit pitchers failed to stop Cleveland from hitting.

A pitching exhibition almost as dazzling as Hudlin's was produced by the massive Jim Elliott, of the Brooklyn Robins. Hurling his team to its fourth straight victory over the Boston Braves. six to one, the mountain manfrom Terre Haute allowed only four hits and showed the speed of a Vance or a Walter Johnson.

RED SOX EXHIBITION

As though trying to imitate the work of the Robins in climbing out of the cellar, the Boston Red Sox took their second game in two days from the Washington Senators, this time by six to one on the seven-hit hurling of Harris.

A Story of One Wonderful Week By MALCOLM DUART 'Copyright 1927

hours," he called, as he left the house.

The green motor car in the yard engaged his attention first. He climbed to the driver's seat, started the motor, and drove around the house.

"Smithy!" he called, as he turned of the resistor.

is the driver's seat, started the motor, and drove around the house.

"Smithy!" he called, as he turned off the ignition.

The boy appeared in the door of the brick milkhouse.

"Come here a minute.

Smith time slowly across the intervening streth of mud and weeds and debris-littered earth.

"Got something for you to do," the man sald, alighting from the car. "Till hoe up the tracks in the road. Made some new ones in the yard, and I've got to take care of them. There'll be fun in this, though, You're to bust up this automobile."

"Bust it?" queried the boy.

"Knock it into a cocked hat," said Bodey, "Don't leave two pieces of it together. We can't afford to have this advertisement sticking around the yard. Fix it so nobody can tell it from a rai-trap—and then we'll bury the pieces for luck."

"Wity can't we take it apart and sell the pieces for luck."

"Wity can't we take it apart and sell the pieces for luck."

A broad smile lifted the young man's cheeks, parity closing his eyes. Never smashed anything expensive like that followed brought from him a whoop of pleasure. Dancing heavily about and twisting himself as a baseball pitcher does, he broke each of the windows, crowing gleefully. When Bodey left him the boy was banging at the metal sides of the tonneau with an axe.

"Don't leave any of that plate glass on the ground," he man advised as he walked away. "Put it in a paper or a rag and bury it."

Bodey rummaged in his pocket in the word had been abid to the them and the small clark when a skild over that stime." The mail the lower with his arm, driving a friendly farewell to the man who stood looking after him.

Bodey rummaged in the door of the intervening streek of gumn the sakid over that streek of gumn, the streek of gumn, the drive had a friendly farewell to the small remains a friendly farewell to the small remains a friendly farewell to the man who stood looking after him.

Bodey rummaged in the skild clark. Noon the sakid of wary in hit end. The mail the close of the man stell the froad.

Working ste

grooves in the yard, he trudged down the road.

Haif we hour later at the edge of the highway, he began operations. The dirt was soft, and it was not difficult to erase the regular markings that Miss Rollins had left, but his labors made a trail of their own. After scratching the surface of the road for ten feet, he leaned upon the hoe and inspected the streaks of fresh brown, earth that he had left. "That won't do," he said aloud. Crossing the half-filled ditch that the side of the welling. As he stooped to examine the assortment, his eye caught a movement in front of the house.

VICTÓRIA EXCHANGE CLOSED FRIDAY

TO-DAY'S GRAIN MARKET

Winnipeg. June 2—Heavy profittaking sales brought about a sharp dip in wheat values here to-day, July dropping 3c to 185½, October 2½ to 143 3d.

The favorable growing weather in Western Canada and private reports dealing with the condition of the Winter crops in the United States, which were constructed as moderately bearish inspired the weakness. Speculators also were pulling out in anticipation of further declines when the market opens Saturday morning. The market will be closed to-morrow in observance of the King's birthday.

Oats and barley met a strong demand and prices for these commodities advanced fractionally. In contrast, rye dropped two cents or more.

C. W., 1854; rejected, 1804; track, 2014. Rye-2 C.W., 1134. Chicago, June 2 (By B.C. Bond Corporation's direct pit wire)—There was a large amount of profit-taking in wheat to-day as was to be expected in view of the recent advance. The market, however received aggressive support on the extreme dip, despite the lower Liverpool markt and weakness in Winnipes.

Reported in Ontario Reported in Ontario district, has been uncovered at Silver Lake, two-miles south of Loon, by aparty of Port Arthur prospectors, headed by William Loneworth. The discovery of the properties was made

Royal Financial Corporation Ltd.

Half-yearly Statement Shows Total Assets Have Gained

of Montreal, which appears elsewhere in this issue, makes a strong exhibit.

Total assets show a marked increase as compared with a very contract of the Bank instructed by party suddenly called East, we will sell at our Salesroom, 727-733 Pandors Avenue

At the same time the usual strong liquid position has been fully keps up due largely to the larger volume. Of business offering. Earnings also have shown a tendency to reach higher levels.

The statement, which is for the six months to April 30, reports total assets.

levels.

The statement, which is for the six months to April 30, reports total assets of \$784.112,774, as compared with \$749.123,357, at the end of April last year. Of this total, liquid assets amount to \$427,990,376 equivalent to 61,77 per cent of liabilities to the public, and compare with \$406,780,203, equil to 60.33 per cent a year ago, included in liquid assets are cash holdings omprise gold and subsidiary coin \$38,213,500; Dominion Notes \$49,251,266, and deposits in Central Gold Reserves \$19,000,000. Last year total cash holdings comprise gold and subsidiary coin \$38,213,500; Dominion Notes \$49,251,266, and deposits in Central Gold Reserves \$19,000,000. Last year total cash holdings were \$99,520,656, equal to 13,27 per cent of liabilities to the public.

A considerable proportion of liquid assets are represented by call and short loans and balances due by other banks, totaling \$168,282,229, up from \$159,266,933 a year ago.

That the trend of business is towards larger volume is reflected by current loans in? Canada of \$249,470,228, as compared with \$227,325,605 a year \$300, an increase of over \$22,000,000. Deposits also continue to record substanding at \$519,846,016, against \$489,464,334, and deposits not bearing interest standing at \$519,846,016, against \$489,461,334, and deposits not bearing interest \$136,730,698 compared with \$134,713,173 last year.

PROFIT AND LOSS ACCOUNT

The profit and loss account shows that the larger volume of business is permitting of the satisfactory increase in earnings. Profits for the half-year were \$2,780,660, equal to 9.29 per cent

on the combined capital and to-4.59 per cent on the combined capital, reserves and undivided profits of the bank, as against \$2,469,326 for the same period last year. This amount, added to the balance carried forward at the end of the fiscal year, made the total available for distribution \$3,548,077, which was sistributed as follows: dividends \$1,795,002; provision for taxes Dominion Government \$199,583; reserved for bank premises \$250,000, leaving a balance of \$1,303,491, compared with \$26,529 at the conclusion of the six months period a year ago.

BEATTY TALKS TO

Vancouver, B.C., June 2.—"In this sear in which we celebrate the diamond hubitee of the Confederation of Canada pur greatest contribution to the nemity of these contribution of the country in which we considered to the country in which we considered to the country in which we canadian Pacific Railway, in an adiress given yesterday at a combined nuncheon of the Canadian Club and the Vancouver Board of Trade.

The luncheon took place in the ball-noom of the Hotel Vancouver, which was filled to overflowing with an audimos composed of the leading citizens of Greater Vencouver with W. C. Dithars, president of the Canadian Club, in the chair.

Previous to his speech Mr. Beatty

the chair.

Previous to his speech Mr. Beatty
pressed the great satisfaction of the
anadian Pacific Railway Company at
he addition to the members of its
bard of one of Vancouver's outstandg citizens, Blake Wilson.

"I have a particular personal gratification," said Mr. Beatty, "at his election to the board because of our friendship over a great number of years, and my very great admiration for him as a susiness man and a citizen of the highest type. I hope the association still be as pleasants to Mr. Wilson as I know it will be valuable to the company."

"We all know," continued Mr. Beatty, "that geographically Canada naturally slivides into four parts: The Maritimes, the great central provinces of Ontario and Quebec, the prairies and the Pacific slope. We all know that sach has its problems, depending upon the character of its production and the place of its market. We know, too, inat these problems can only be solved when they are appreciated nationally, and that the efforts of all parts of the country are absolutely essential to determine and relieve the disabilities of other parts. Greater travel between the East and the West is essential."

Sectionalism and parochalism will isappear or be minimized directly Pachena—Part cloudy; light; 30.04; was launched on the Clyde in the pre-disconting the pre-discont

Sectionalism and parochiatism will lisappear or be minimized directly pur people the moderate and the constructive, realize what these problems are and provide the sentiment which naures the success of public measures aken to solve them.

Suggests Round
Table Conference

At this stage Mr. Beatty emphasized he fact that the two factors which aeralded everyone's optimistic view-point as to the future of the Dominion vere firstly, a good system of demoratic government and, secondly, a scople noted for their level view of hings, their seeme of hysteria and heir sanity in viewing and grappling ith their own problems.

PORT SHIPPING SHOWS INCREASE

Lumber Vessels Bring Total of Tonnage For May Much Higher Than April

Inward and outward deep sea shipping handled at the port of Victoria during last month had a net tonnage of 525,268 tons, an increase of 117,380 net tons over the previous month, according to the report prepared by Roger Pinneo, port development expert here. The number of vessels handled was 304, an increase of eight over last month. The increase in tonnage is due to the arrival here of vessels for lumber, a movement which was not well under way during April.

Figures on the month's shipping are as follows:

Sixty-one Canadian vessels for U.S.

87,047 net tons.
One Canadian vessels for Japan, 8,789 net tons.
Sixty-six U.S. vessels for U.S., 81,459 net tons.
Two U.S. vessels for Oriental ports, 16,808 net tons.
Three Japanese vessels for Japan, 15,620 net tons.
Four Japanese vessels for United States, 20,085 net tons.
Two U.K. vessels for Japan, 13,713 Gamet tons.

MARINE NOTES

With fifty tons of general cargo for

With 900,000 feet of lumber from this port and a large consignment from other Sound ports, the Yama-shita Company's freighter. Flerida Maru, which has been loading here during the week, put to sea for Japan at 10 o'clock last night.

The former whating vessels Orion and St. Lawrence, now owned by the Orion Fishing & Packing Company, will be hauled out at the Victoria Machinery Depot to-morrow for overhauling. The Ss. Nootka will be released to-morrow after being reconditioned and fitted with tanks for fish oil carrying purposes.

Lumber Vessel Chartered For Europe Service

Seattle, June 2—Chartering of the British steamship Valacia by the Canadian-American Shipping Company Inc., to load lumber and general cargo in Puget Sound and Vancouver for Europe was announced here yesterday. The vessel, which is due here July 10, is the sixth ship chartered by the company within a month. It is a 12.000-ton treighter.

The #Williams Steamship Company announced yesterday that it freight ers Willseno and Willboro, loading here early this month, will sail directly for New York without calling at San Francisco or Los Angeles. Unusuall, heavy cargo bookings here were assigned as the reason for omission of the Southern stops.

When the Alaska Steamship Company's liner Victoria sails from Seattle for Nome on its first voyage of the year Saturday morning it will be equipped with an experimental radio telephone apparatus by which the vessel will keep in nightly touch with Seattle. Commercial messages will not be handled.

touch with Seattle Victoria Boy Gets

San Francisco

Pinneo, port development expert here.

The number of vessels handled was about in increase of eight over last month. The increase in tonnage is due to the arrival here of vessels of lumber, a movement which was not well under as follows:

Figures on the month's shipping are as follows:

INWARD

One Canadian vessels from UK. 3,553 net tons.

One Canadian vessels from Japan 17,672 net tons.

One Canadian vessels from US. 84,963 net tons.

Two US. vessels from Lisa 18,855 net tons.

Two Japanese vessels from US. 19,896 net tons.

One UK. vessel from Mus. 3,571 net tons.

One UK. vessel from Mus. 3,572 net tons.

One UK. vessel from Mus. 3,573 net tons.

Two US. vessels from Mus. 3,573 net tons.

Players in Trouble When Mails Rubs His Dirty Hands on Ball

Portland, June 2.—Pitcher Mails of the San Francisco Seals and O'Douli, Seals fielder, were fined \$50 each and suspended indefinitely yesterday as a result of a fuss in Tuesday's Coast League game here, which resulted from charges that Mails had put dirt on new balls. Nick Williams, Seals man-ager, and Johnson, Seals fielder, were fined \$25. The four Seals drew the censities as a result of an argument.

Stars Incline, But De Not Compel®

Good luck is indicated for to-day, ac-cording to astrology, for many planets are in beneficent aspect. Under this planetary government great enterprises may be undertaken with an extraordinary chance of suc-

matters, while this configuration prevails.

Engagements made under this direction of the stars should be lucky where marriage is concerned. Prosperity and long life together are indicated.

In the early hours of this day quarrels and misunderstandings may be easily precipitated and for this reason it is wise to exercise control over the emotions.

This should be a favorable time to start new business ventures, especially if they have to do with lands.

Agriculture is subject to benefic aspects, which forecast increased foreign markets for food stuffs.

This is a fortunate rule under which to begin a journey and again an immense volume of travel in the Oriem as well as in Europe is prognosticated.

Again a London astrologer prophesical for the President of the United States "an astonishing exhibition of foresight and force."

Many factional quarrels may be encouraged by the positing of the stars Clubs, organizations and political parties may be easily disrupted under this sway.

Following the floods, which as-

Jeff Parts Company With His Appendix

(Copyright, 1927, by H. C. Fisher, Trade Mark, Reg. in Canada)

"Kruschen" fills each day with joy, For every little girl and boy.

That "Kruschen" Feeling!

They should be, you know. Whenever they're not quite their cheery selves — listless and naughty and uninterested in lessons and play, inclined to mope and sulk — you may be sure there's something wrong with their insides. They've eaten semething to disagree with them or forget a bottle for the nursery.

Bless their little hearts, they fairly bubble over with it!

And though they're always on the go, the longest day is not a whit too long for them. From morning to night the pace they keep is a regular corker; and so, when bedtime comes at last, they're gladenough to obey the call, healthily tired out.

Are your children always as full of energy and spirits?

They should be, you know. Whenever they're not quite their cheery selves — listless and naughty and uninterested in lessons and play, inclined to mope and sulk — you may be sure there's something wrong

Rare Mineral Collection Bequeathed By Victorian To University of B.C.

By T. A. K. TURNER

By T. A. K. TURNER

A LTHOUGH generally acknowledged by mineralogists, and geologists as the one of the most perfect collection in existence, there are only a few other people aware that a quaint old family residence on Discovery Street, Victoria, contained such a priceless display of crystals, minerals, earths and precious stones, as that so carefully collected from all quarters of the globe by the late W. J. Sutton, a gentleman of vast experience in this particular branch of scientific research.

Unfortunately for the complete consumnation of Mr. Sutton's life work, and his earnest desire to see his efforts preserved for all time in the University of British Columbia—where, as he hoped, that institution would become an accomplished fact.

The great mineralogist passed away in the year of 1914, and it was left to his devoted widow and her sister, Miss Fox, in conjunction with the learned Faculty of the University, including Professor S. J. Schoffeld, Dr. Mc-Kechnie, Professor T. C. Phemister, the hitter a clever young scientist and mineral expert from Glasgow and Cambridge Universities, to bring about the successful transfer from this city to the new university building in Vancauver, B.C. In addition to these gentlemen, and acting in an advisory capacity, during which period he gave much time and interest in order to complete negotiations, William Fleet Robertson, of Rockland Avenue, is, to be heartily congratulated, for there was for several years a possibility that this wonderful collection might have passed out of the country, and this would indeed have been a lamentable event.

As may be inferred from the above remarks, the late Mr. Sutton was a great traveler and it may be remembered acted as geologist for the Dunsmuri interests. In this capacity he visited practically every corner of the world. Many of his much-prized specimens were gathered in Egypt while others were selected from Mexico, from the farthest points on this continent,

at vertices of a cent a day for each child. The arrange of the freedom of the collection of baser metals gives as a system of the collection of baser metals gives as a system of the collection of baser metals gives as a system of the work of the woods and disappeared. The arrested man was brought to Hall fax and lodged in the county jail. He was charged with harboring liquors by the value of \$11,000. He pleaded not guilty and ball was fixed at \$2,000.

seen in abundance, the various colorings are particularly pleasing to the eye clusters, and indeed in all forms, would suggest to the present day prospector a great long-ing to meet such lucky "finds," while the collection of baser metals gives as any almost too good to dream about. In addition to every known metal, the collection has a series of wonderful polished marbles and choice rocks, and the collection has a series of wonderful polished marbles and choice rocks. In addition to every known metal, the was charged with harboring liquors to the eye collection of baser metals gives as any and the collection has a series of wonderful polished marbles and choice rocks. In addition to every known metal, the collection has a series of wonderful polished marbles and choice rocks. Some idea of the extent of this splendid array may be gathered from the fact that in addition to sixteen a transparent of cases of small minerals each averaging 600 pounds, and close on a dozen cases of books of rare value from a mineralogate's point of yiew, there were a number of cases of coarse specimens of the extent of this splendid array may be gathered from the fact that in addition to sixteen and the collection has a series of wonderful polished marbles and choice rocks.

Some idea of the extent of this splendid array may be gathered from the fact that in addition to sixteen and the collection has a series of wonderful polished marbles and choice rocks.

Some idea of the extent of this splendid array may be gathered from the fact that in addition to sixteen and the collection of the weighing a matter of twelve tons. In order to prevent any possibility of damage, every specimen was carefully wrapped in wool and excelsior, and each case heavily crated, the whole being packed and shipped over the CPR, service by William Hurd and an experienced staff of Victoria assistants, under the personal supervision of Professor T. C. Phemister of the University and William Fleet Robertson.

A dance will be held in the Luxtor Hall on Friday, June 3, under the auspices of the Luxton Hall committee in aid of the funds, when Pitts's orchestra will be in attendance and refreshments will be served.

SAANICH FORESEES

Estimates of revenue and expenditures were examined by the Saanich Council Tate State, and were substantially revised. General revenue anticipated was increased by 64,100, and now stands at \$60,900.

Frowincial contributions are expected to total \$42,000, made up of liquor profits \$25,000, motor licenses \$12,000 and pari-mutuel tax \$6,000.

Expenditures were pruned by \$18,600 and now stand at \$111,400, pending final consideration of roads expenditures, tentatively placed at \$50,000.

If this heading remains unchanged the budget will require only \$50,500 from the general tax levy. In the estimates as first presented this, tax was required to provide \$73,200.

BUY NEW BUS

The new light bus to be operated by Saanich on the Lake Hill route cost \$2.475. The council last night authorized payment of the account, Councillor Vantreight criticizing the purchase as too light for the duty to be imposed.

EMPLOYMENT INCREASES

London, June 2:—Ministerial cheers greeted a statement by Sir Arthur Steel-Mattland, Minister of Labor, in the House of Commons yesterday that Great Britain's unemployment now numbered 970,000, the lowest figure recorded since 1921.
